

Display.h

```
graph BT; AD[AdvancedDisplay.h] --> D[Display.h];
```

The diagram illustrates an inheritance relationship between two header files. At the top is a gray rectangular box labeled 'Display.h'. Below it is a white rectangular box labeled 'AdvancedDisplay.h', which is outlined with a red border. A blue arrow points vertically from the top of the 'AdvancedDisplay.h' box to the bottom of the 'Display.h' box, indicating that 'AdvancedDisplay.h' inherits from 'Display.h'.
